

myhomefone™

No nbn™ needed

Suitable for people who:

- ✔ want to make affordable phone calls
- ✔ want to keep their home phone number
- ✔ don't want nbn™

- ✔ Keep your old phone number
- ✔ Hearing aid compatible
- ✔ Power-fail backup
- ✔ Voice amplifier
- ✔ Large keypad buttons
- ✔ Runs on the 3G network

PLUS **SOS** urgent contact button.

With a simple key press (located on the back of the handset) you can make a call to a pre-programmed number – a neighbour, a relative or caregiver. Up to 6 numbers can be programmed – the phone will keep dialing until one of the 6 numbers is answered. This button can even be programmed to call your choice of emergency response service or professional monitoring.

Dont want nbn™? Contact myhomefone™ now.
